THE MICROBIAL CDMO FOR PROTEINS, ENZYMES, ANTIBODIES/FRAGMENTS, SPECIALTY SMALL MOLECULES

OUR BIOTECH SERVICES

DEVELOPMENT
Fermentation
(2L, 10L, 300L)
Downstream
(pat, pilot)
Spray drying

MICROBIAL
FERMENTATION
28 main vessels
3 plants
3 to 30 to 50 to 100 m³
1400 m³ total capacity

PRIMARY
RECOVERY
Centrifugation
Filtration
Cell rupture
Drying
Separate plants
for pharma/food

PURIFICATION
Crystallization, UF, MF
Suppression, Drying
Multiple plants
for pharma/food

MANUFACTURING & SPRAY DRYING
Process development
Scale-up
Commercial Manufacturing
FDA/DMF approved
FSSC 22000 certified
100% beta-lactam free

OUR EXPERIENCE IS YOUR SOLUTION

Case-study: enzyme development
Fast-track project using bioreactor chart

Case-study: enzyme manufacturing
Fast-track implementation, make up & downstream

Case-study: small molecule manufacturing
Optimal bench-to-batch
